

# Snackmate

SM Combo

“The modular vending system designed for easy service and maximum flexibility”

### The features you want

- MDB coin mech Protocol
- Cold drink expansion cassette - increase your cold drink capacity by almost 50% in summer by simply replacing the third snack tray with a cold drink expansion cassette.
- Front ventilation allows machine to be placed hard against a wall without causing ventilation problems to the refrigeration system
- Rapid chilling – gives immediate direct chilling to front cans
- Refrigeration module is easily accessible by removing the front panel
- Highly efficient refrigeration system with minimal start-up surge
- Automatic coin-tech detection for industry approved coin mechanisms and bill validating systems
- New generation electronics – easily upgradeable with hand-held programmer
- Slide-out control module for easy servicing
- Durable steel construction with powder coated finish & galvanised can module
- Full L.E.D. display
- Anti-salting coin shoot

### Machine Configuration

The **Snackmate™ Combo** has been specifically designed to allow maximum flexibility for both snack and cold drink options.

- Tray dividers & coils can be changed to fit a wide variety of product combinations
- The Can Module is easily adjusted to fit multiple can sizes

### Electronic Features

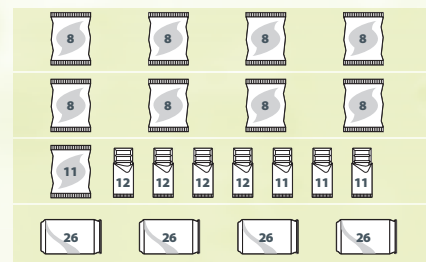

Advanced electronics include:

- Multiple pricing
- Data recall
- Self diagnosis

### Options

- Lockable cash box
- Flexible tray & can module configurations including a kit for 250ml energy drink cans

### Standard Configuration (SM Combo)

Multiple configurations available
